80km Championship Race Report

Rider safety is of paramount importance to ATTA, therefore it was extremely disappointing to have to deal with a member of the public coming to the desk to calmly complain about rider behaviour, including an incident where she believed she could have taken out a cyclist had she not taken evasive action. Unfortunately, she did not record that rider's number or we might have had more than one disqualification today. This was in addition to a couple of riders complaining about the actions of others, and David and I observing a large percentage choosing to ride in the middle of De Haer Road on the finish straight, when there was a nice wide cycle lane available for much of it on the left hand side. Holding up traffic and getting locals offside puts our courses at risk. ATTA are the only group that still rides at Wandii.

Moving on to the cycling, the 80km Championships are awarded based on Standards, and this year's winner was Matheos Venetis. Congratulations to him. Stu Helm was second, and Paul Borrett third. Jarred Anderson was the fastest person today, returning with a new course record. Stu was again second and Matheos third. Rachel led home the ladies, followed by Steff, who also took out the female master's category, and Sarah was third. For the shorter distances Mark Smith was fastest in the 42km category, and Marion Mundt for 25km. Well done everybody who rode today, and a warm welcome to our new riders. A couple of riders celebrated milestones, namely Colin McCaughey and Peter Lundberg notching up 50 and 100 rides respectively. David and I felt that Sarah Young deserved an award for producing a beaming smile each of the ten times she passed the finish line. Perhaps it was the knowledge she was on her way to a PB. Or maybe just that there was one less lap to go until the finish! Unfortunately, the Wandii puncture gremlins meant a few people recorded DNFs.

David Equid took care of the many tasks associated with start lists, timing and results, as well as traffic management permission. Floora di Wit looked after you with great efficiency at the desk. Stuart Murray had a busy and fairly stressful morning at the roundabout (possibly harder than riding 80km), and Dennis Devereaux guided you back on to De Haer Road. John Healy set our relatively small field on its way.

Our Easter weekend of time trialling commences at Champion Lakes on Good Friday, followed by Gidge C on Easter Monday. Remember that Champion Lakes includes the Junior State ITT Championships. And if you don't feel like riding, why not volunteer, as we need more helpers at both events.
