**Note:** The first ~20min of times today were not recorded in the timing system and had to be extracted from the video backup. This impacted the early laps for riders 1-12. The total times for these riders are correct and came from the electronic system.

### **Early Bird 3**

Pleasant conditions greeted riders at today's Early Bird 3 event; the temperature was moderate and what little wind there was didn't seem to negatively impact given that a total of 19 new PBs were set today. Sophia Sammons posted a new course record for the female road bike riders, taking 1min 20s from Marion Mundt's previous time while Sean Ralph posted another record for the male road bikes. Sophia was 2.5km/h faster than her previous outing here (last year) which was the best PB of the morning — a superb performance! She makes her first entry to the **Fastest 50** log for the Kings Park course at number 21. Jack Dohler was another stand-out performance today, the only rider who averaged faster than 40km/h.

Issues with the timing hardware meant that the first 20min of times were not recorded. Total times for all riders came from the electronic system, it was just some of the initial laps that were missed but these were later recovered using the backup video system.

Of note was Richard Williams **200th ATTA TT** today (and Neil McDougall is not far behind).

Today was our largest field at Kings Park for a while with 80 registrations, then despite a number of pre-event scratchings and no-shows on the day we still had twice as many riders than at EB2. Hopefully we can get even more riders to come along and join us at these events, the positive feedback after today's event was great to hear and shows that those who make the effort are rewarded with good riding. It was good to see a couple of "family" teams participating again, along with several new riders where this was their first ATTA events.

Early on site today was Paul Borrett setting up the course signage which he then retrieved once racing was complete. You were welcomed at the registration desk initially by Vanessa Johnson then later by Amy Currie as they shared the role in between riding their own 5 laps of the course. Megan Stalker was our starter with Darren Gilbert feeding riders across the road after checking that everyone had a transponder on their bike. Keeping wanderers off the course was Mick Brammer at the city end and Josh Curulli at the Subiaco end. Darren Wright was focal point and David Equid managed the registrations, start list and timing, assisted by Mouse with the results collation.

Next event is on Sunday, 26November at Gidgegannup for the first of the Hilly Series events for this season. You can enter just this event or the whole series using the link on the ATTA calendar webpage noting that entries close at 6PM on Thursday, 23 November.
