Early Bird 1 Race Report

We were hoping for a lot less wind than we got, and certainly not an easterly breeze, but towards the end of the event it had swung around to a northerly and the trees provided some protection and faster lap times! It didn't stop the PB's in their tracks though with Campbell McDowell, Lauren Humphreys, Amy Ross and Simon Hansen all showing us what can be done out there.

Alex Vukovich was the fastest on a time trial bike today, and Scott McDowell setting the best pace in the road bike category in what was a very small field for the first Early Bird of the season, where we had 23 women out of 45 participants on the day. Our participation rates have been falling for many years now, and while we have a lot of great things happening in 2024, we are having to adapt as a club and if you have any feedback on what could make ATTA better, please have a conversation with us.

Steve Oates handled the entries, start lists, timekeeping and results with help from David Equid who needed a well deserved break, and Mouse who crunched numbers in the background. Paul Borrett took care of course set up and pack down. Lee Bolden expertly started off everyone in his first time in the role as did Claudia Dohr doing a wonderful job in her first time managing the desk. John Healy looked after the volunteers, with Mick Brammer and Andrew Candy keeping the vehicles off the road at either end.

The next event is this Sunday the 22nd of October at NorthLink PSP 80km.

Thank you

Steve
