A busy morning at Chidlow for the State Championships, and just like the juniors a few weeks ago the weather gods were kind. At least that was how it looked to us watching on. And there didn't seem to be too many complaints from riders, most of whom just looked suitably exhausted passing the finish. Results are available on the website [AusCycling+ITT+2024.pdf \(squarespace.com\)](https://www.squarespace.com/AusCycling+ITT+2024.pdf). Well done to everyone who completed, and congratulations to our new WA male and female champions:

Elite - Matt Burton and Sophia Sammons

U19 – Jeremy Smith and Scarlett Sibbel

Master 40 - 44 – Ricky Pederson and Jennifer Davis

Masters 45 - 49 – Andrew Simpson

Masters 50 - 54 – Allan Cooper and Summer Roberts (proving she doesn't really hate hills)

Masters 55 – 59 – David Sofield

Masters 60 – 64 – Steven Knight and Giselle Hosgood

Masters 65 – 69 – Eamonn McNulty

We know a few riders crawled of their sick bed to be with us this morning so well done. Special mention to Aaron Williams who completed the course on his highest gear after a system failure.

We don't usually race the shorter distances on this course so there were no PBs to record from the championships, although a few new course records for Matt Burton, Sophia Sammons (again), Jeremy Smith and Jennifer Davis.

Eleven riders completed the 44km ATTA TT, with Tony Doherty taking out top step, Stuart Murray the Standards, and Wanda top female.

David Equid again gave up his time to sort out start lists and to manage the timing and results. As usual Mouse crunched numbers in the background managing the data we use. Troy Wainwright looked after course set up and take down, in between setting a new PB. Angie McRobbie looked after the desk. Dugald Rogers and John Andrews looked after the corners, and Ian McRobbie the roundabout. John Healy was your starter and focal point. Ken Wibberley and Nicholas Connan were the AusCycling Commissaires.

Unfortunately it was noted that a few riders failed to follow road rules, one significantly so. All of these were competing in the State Championships and the commissaires decided that a warning was sufficient. Such incidents put our ability to host events at risk, but worse carry the possibility of serious injury. As noted by one of our corner marshals, if the fastest riders can fly around the corners without breaking rules, perhaps they are the example to follow?

John
