It was a touch breezy this morning at Kings Park and seemed to change directions at times, although some people give the impression that they are impervious to weather conditions. Alec Vukovich took top spot with an impressive ride and PB. Juniors Jeremy Smith and Jack Dohler followed Alec home, Jeremy with the largest PB of the morning and Jack with a very nicely controlled, negatively-split, series of lap times. Marion Mundt, on her 50th ATTA TT, was first female home. She was on her road bike to accommodate her injured elbow and reset the female road bike record for good measure. Not to be outdone, Lee Bolden raced home with a new male road bike course record. Personal bests were recorded by seven other riders, so congratulations to Adam, Matt, Campbell, Daniel, Miles, Alicia and Nigel.

Of course, ATTA participation is not just about the very impressive super-fast riders and personal bests. Well done to everybody who pulled on a number and raced this morning; be very proud of yourselves. Honourable mention to newcomer Milla Marston visiting from Melbourne, who borrowed a bike older than herself just so she could ride an Early Bird event.

Paul Borrett was out early once again, looking after the course set-up and pack up. The 4F team once more provided volunteers to take care of the desk, with Sam Bolton and Vanessa Johnson greeting you before and after your ride. Darren Wright took his first turn in the starters chair, with Simon Jones providing assistance across the road. David Equid looked after Race Roster, sorting the start list (including late entries), timekeeping and results. Mouse provided his usual assistance in the background, taking care of records and providing data to support our results and report writing. Mick Brammer once again looked after the city end of the course and Dom Minervini keeping strays of the course at the Subi end. Thank you to all our volunteers, and it was good to welcome a couple of new faces to the team. We cannot run our events without volunteers, so please assist when you can.

John and Mouse
