Early Bird 7 – Race Report

Fifty riders together with our volunteer crew helped ATTA welcome in 2024 on a fine morning at Kings Park. According to Mouse this was the 28th Early Bird series and the 24th held in Kings Park. It was certainly rewarding to see eleven of the fifty starters powering their way to personal bests. And well done to Rom Phillips completing his 150th ATTA ride.

Jai Hindley was the fastest rider today, also recording the best PB of the morning which was not surprising given that it was back in 2015 that he last rode in an Early Bird event. Hopefully another great season ahead for him on the international circuit, good to see him and his family enjoying an ATTA event while he is home in Perth. Credit to David Bryant for holding top spot until last man off Jai came over the line, David returned a respectable PB of his own. Lee Bolden completed the top three riders. Steff Van Amerongen pipped Marion Mundt to be the fastest female, with Marion taking some comfort in remaining top of the BIP Group A points table. Sean Ralph and Sabine Bird were the fastest in the road bike categories, with Paul Borrett taking out the standards. Lots of happy faces stayed around to watch Jai give a lesson on riding the course and powering up the hill, he did comment that it hasn't become any smaller over the years.

Thanks to Paul Borrett and Mick Brammer for volunteering for each race of the series this season. The 4F team also completed a full series of looking after the desk; Amy Currie again greeted you this morning after giving up her ride to help, assisted by Vanessa after she completed her 5 laps. Megan Stalker was your starter, with Walter Lundberg lining riders up across the road after checking that everyone had their transponder and bib number in place and dad Peter was our Focal Point. Dugald Rodgers kept stragglers of the road at the Subi end. David Equid took care of all things related to start lists and timekeeping (assisted by Carolyn on the day). Mouse provided his usual assistance in the background, taking care of records and providing data to support our results and report writing. Thank you everybody. We cannot run these events without volunteers.

As usual, results are posted on the ATTA website <https://www.atta.asn.au/s/EB7-results.pdf>. Mouse is already busy calculating the final BIP points and series winners, which will be published shortly.

This Sunday we link up with WCMCC at Chidlow for Hilly Classic 3 - Chidlow-Wundowie. Registrations for the event will remain open until 6pm Thursday at <https://raceroster.com/events/2024/79294/wcmcc-atta-chidlow-wundowie>. We still need two more road marshals to assist, so please volunteer if you (or a friend or family member) can assist.

John, Mouse and David
