## Hilly 4 - Chidlow C

Ideal conditions for a TT greeted a small but dedicated group of racers to Chidlow, not too hot and only light winds. For those who participated it was a good primer for this season's 40 km ITT Championships that will be on the same Chidlow C course, on 21 April.

It was a significant day for Neil McDougall, first away from the start line for what was his $200^{\text {th }}$ ATTA event. Unfortunately injuries triggered scratchings that kept several of the faster riders who had entered from participating but those who did show had some impressive results. There were 7 PBs in the 44 km field and 1 PB in the 22 km crew.

Alec Vukovich was fastest rider on the day (also fastest on Standards) with Mark Radziejewski second and David Fargher third. Marion Mundt was the first of the females with Steff Van Amerongen second. Sean Ralph established another Male road bike course record and Jennifer Davis did the same for the Female road bikes, something for others to chase in the future.

Many thanks to those that stepped forward to volunteer or had a family member volunteer on their behalf, fortunately we were able to fill all the key spots. David Equid managed the start list and Kim Van Amerongen ran the timing systems on the day (with David and Mouse assisting in the background). Darren and Simone Wright set up the course, with Darren also covering BWTM duties and acted as Focal Point on the day. Gwyn Williams again ran the desk and Angie McRobbie was starter. John Andrews ensured riders were able to safely turn onto Old Northam Rd, Tim Carpenter did the same at the roundabout back in Chidlow. Sabine Bird was on hand ready to support with First Aid if required (which fortunately it wasn't).

Once again, we were able to incorporate several late entries into the start list even after it had been posted. This adds significant additional work to the management of the event and it would be appreciated if riders could get their entries in before the advertised closing time listed on the web site. It's not that difficult to be on time!

A bit of a gap before our next scheduled event which will be back again in the general Chidlow area for Hilly 5, around the Wooroloo course on 25 February. As always we require volunteers to run these events so please offer to assist if possible.
