39	5	Ian Davies	Pair-mixed-R	2	1:16:13.7	1:16:13.7	31.1			
40	3	Richard Williams	HC	1	1:19:29.4	1:19:29.4	29.8			

NORTHLINK PAIRS 1 - Race Report

It was a very chilly start to the day with some people saying it was only 3C at the start line, felt even colder at 06:00 when setting up for the event. While it was mostly calm hiding beside the sound barrier, riders reported a somewhat stiff northerly out on the course making it hard work on the way to the turn but helpful for the return.

A number of firsts:

- Our first Pairs event on NorthLink – 16 riders decided to buddy up and share the fun.
- Our first event with road bike categories – 12 of the 40 riders were on road bikes.
- The first of 3 Pairs events scheduled for this Winter season.

And a new course record from Matt Burton, he was first to ride and clearly first home.

Few of those who participated in the event had completed a 40km TT on this course before and within that elite group there were no new PBs set today. Now that baselines have been set there are good targets to aim for when we return in August for the second Pairs event on the NorthLink course.

Unfortunately, there were a large number of riders who were late for their start which complicated matters for the Starter/Timekeeper. Everyone is advised of their start time in the briefing email so there is no excuse for being late. We also had a failure of the timing loop after Matt crossed which meant that the video was used to recover times for a couple of early riders, reinforcing the need for everyone to have their numbers clearly displayed.

Thanks to Steve Oates for breaking his ride to stand in the cold to ensure everyone knew where to turn at the Muchea end of the course. Also thanks to Kim van Amerongen for helping issue numbers and transponders at the "desk" before he was able to ride.

You can find the full list of results on the ATTA app or the ATTA website.

Our next ATTA event is Winter by the Lakes 1 at Champion Lakes on Sunday, 18 Jun, don't delay getting your entries in by following the links from the calendar on the ATTA website
